North American Biketrials Championships

The week begins with the Canadian Pacific Trials Association (CPTA) event held just outside of Vancouver in Belcarra BC. World class natural sections and world class riders will make this one of the top competitions in North America. The riders then travel to Whistler for the 4th Annual Trialsworx event held in conjunction with the Crankworx Bike Festival, the largest festival of its kind in the world. This will also be the North American Biketrials Championships. Huge crowds with sections in the middle of the village make this an extremely spectator friendly event.

Riders travelling to this competition not only get to compete in 2 World-class competitions but they also get to see two of the most beautiful areas in the world, Vancouver and Whistler, the hosts of the 2010 Winter Olympics.
