

BIU NEWS 2011 MARCH

EARTHQUAKE, TSUNAMI AND FIRE IN JAPAN

It was the biggest catastrophe in the 400 years past of Japan. And the magnitude 9.0 is one of the biggest earthquakes in the world history. Some cities were completely disappeared with nothing left but the flat ground. Houses and people gone somewhere. So the government do not know how many people dead exactly yet. Still electric, transport, phone, water, gas are stopped and 2 unclear generating stations in Fukushima Prefecture in danger. Survivors are calmly and trying their best to keep exists. Good thing is over 50 nations already offered their help to Japan and some of them (USA, Korea and Singapore) are started working. We hope to recover the situation however...

Thanks a lot for your mails. I am okay but half of Japan had very big damage and we still do not know the actual size of it this time. Just a week ago, I was in the area (the north of Japan, near to the unclear generating stations and stayed in Tokyo for 3 days) to have meeting and check the venue in a village for the WBC in the future. Therefore it is very pity to have the catastrophe this time. And if the earthquake happed one week ago. I am sure I was in it. We got another earthquake in the different place with chain reaction. Nagano, Gifu and it is getting closer to may place. I do not know if it comes to my place. There is very high risk to have another big earthquake again in some weeks and some years. We have to wait and see. BIU is trying to check the members in the areas. Need some more days at least. Again, thanks to your thought and I am still okay.

Sincerely yours,
Hiro

Thank you for worry about me, my family and Japan.

hello Hiro
it's worry all of us here in S'pore when we heard the news i did call u

but no response bless that u n family are alright waiting to hear from u take care

Dear Hiro,
Wish Yuna, you and your family are well now!! Natural disasters can't subvert us!! God bless Japan and I am supporting for you always.

FROM CHINA

Jason has sent me below news. Thanks for putting it on the website. First, congratulations to Chinese rider Zhao. He got 14 place in the world as the first Chinese rider in the history of Biketrial. We hope his better results this year. The event in Japan, Kameoka cup and the 1st High school & College championship was very successful. The event was held with the corporation of Hiro and Japan Biketrial Students Union.

Hiro is planning to hold next Kameoka cup on 27/March. It will be the 3rd events of KC in this year. Just one year ago, Hiro invited Taiwanese girl Lee Pei-yu for KC and she took part it and practiced with Yuna (national champion 2011) for 10 days while she stayed Japan. We wonder how is she doing now. Any way it could be nice to have riders from the overseas again. Hiro is waiting for the contact any time.
