EARTHQUAKE, TSUNAMI, FIRE, UNCLEAR & SNOW IN JAPAN

Hello all! Here is the report and message from Hiro for you.

Dear Biketrial Friends,

Again, thanks for your kindness and thoughtfulness. Your mails wormed me and us so much. I learned that having friends is one of the most important things in our life from the bottom of my heart. Thank you all. I am Okay and now I am thinking about what I can do for the other as myself.

There were some earthquakes (about M3) in north area last night. Some people died by cold and tired in the shelters. But the snow stopped today and I can see the sun shine. Many things are not settled yet but we have to have a hope for the future. I heard that France will send expert team of unclear to Japan. USA will support the energy for the motors to cool down the unclear generating stations. We are hoping to all though help work to finish the matter. Now over 140 countries offered help and that is the big thing.

Medium from overseas got surprise and reported about there is no any loot in no any devastated areas. And no trash in the shelters. People all in line when they get the water or foods. I think they do not know the typical Japanese. I think all people are trying their very best. Stay cool and bear as much as they can even in the very hard situation. No cry. Great! Police and rescue people also lost their family but working to help people. They try to find their lost family after their hard work over. They are great.

Actually I had been planning to organize my event in Kyoto (Kameoka cup 13/Winter & spring series round 3/final) on 27/March. What a surprise is I already got over 60 entries (including 12 girls/36 kids) even in this situation. And I have decided to hold it as I planned. It will be the first big event after the big earthquake. I think it is necessary to provide joy to the people through the event. I will make charity raise fund as the Biketrial.

So, Biketrial in Japan is not dead! The Biketrial mind works in the any situation. I see it, my friends.

**Sincerely yours,
Hiro**

Here is the message from our Biketrial friends for Hiro and Japanese Biketrial friends. Millions and millions thanks for your thought! I will do my max and work for Biketrial as usual.

**Dear Hiro and all Japanese friends,
We all in Indonesia feel a deep sorrows and apprehensives about the earthquake, tsunami, and all caused by the catastrophe. It's very nice to received this email from you and also from my other friends in Japan one by one that they are all fine. But we are still worried because it's not over yet, especially the people who got the most impact and the nuclear power plant. Stay strong and keep move on! Indonesia and us is trying best to help in each way, contributing capital, volunteers mainly those fluent in Japanese (sorry we don't have much), etc. Japan Embassy here has also already open to receive assistance for sent there. Japan has really helped us a lot such as when Sumatera's big earthquake and tsunami, 9.3 SR on 26th December 2004 that we never could forget. Mr. Sakamoto just came here to join the 1st "Biketrial Indonesia Championship" on 6th March 2011. Luckily, he back to Japan only a day after the earthquake and tsunami so he was fine. Take care all of you there and keep in touch.
