I would like to thank you for the long years of excellent cooperation in promoting and improving our beautiful sport biketrial which is deep in my heart. I will keep working with biketrial in our Biketrial Club in Zariecie and at the Grammar School in Zariecie. I would also like to thank to all active and previous delegates, all organizers of international competitions and riders in countries all around the world whom I was honoured to be cooperating with.

I wish you and all biketrial people good health, lots of successful years and many more beautiful competitions.

Kind regards,  
Anna Sidlikova  
Slovak Republic

### CONTACT TO BIKETRIAL USA

We haven't heard from Peter in the USA for quite long time and also no activity report last year.

Hello Peter,

I am Giuliano Gualeni, Italian BIU delegate. How are you ? Some time ago I contact your friend Michael Friddel to try to know a little the

**BikeTrial American family. I wrote you but I don't know if this is your correct account; I hope is so. As I wrote to Michael, this summer, the 10th July, we organize the final Round of European Cup. Last year we organized the World Championship here in Italy, Darfo Boario Terme, but unfortunately nothing rider from USA. I think is not a "real" WBC without riders from a continent and so I hope is possible find a solution to have some American rider here this summer. European Cup is very nice competition and will take place in Sonico, a very nice little town in north Italy. Of course, I hope your team participate in WBC but also EC is very good. Better both! Have you a official web site on BikeTrial? Exist BIU America Championship? I am very curious about this matter and I don't find information on your activity. I don't know how many people ride in USA and if exist Club or Association on BikeTrial. Michael say me that the level of the rider is not very high but this is really not a problem because the level can growing with two ingredients: time and participation. Time for the rider that participate in international competitions. I hope is possible "break the ice" this years and have some of your rider here, and YOU !! What do you think? Please, reply this mail.**
