

BIU NEWS 2011 SEPTEMBER

WBC 2012

Dear friends,
The organizer accepted my proposition to move his date to July 27/28. This date will most later be possible because it will not be possible to organize in August for reasons of local logistics. We hope that a solution will be found with the Italian organizer.
Sincerly yours,
Jean-Luc

Dear Jen-Luc,

Thanks for your mail. I will contact to Italy and try to find the vest solution.

Sincerely yours,
Hiro

Hello to all,
thank you very much, I appreciate your effort. I hope that it is another tiles on "WBC 2012" mosaic. I write you very soon.

Giuliano

Hello Giuliano,

It is perfect. The ball is on your side now. I look forward....

FROM A BIKETRIAL FRIEND IN SPAIN

Dear Hiroshi,

It's always good to see biketrial competitions go just on and on, your "newsletters" are great. After those storms in Japan I wonder how people is dealing with all of this. Really sorry for what is happening and also for answering so late, I've been quite busy. Best regards from Catalonia (we really hope to have another championship soon) and wish Kamel 218 Japan is making its way trough the people.

Yours sincerely,
O. B.

Dear O. B.,

Thanks for your mail. I enjoyed reading it. I and my friend Mr. Mishima are trying our best to promote 218Kamel J. We are planning to make an official presentation in Tokyo on 17/November and the Catalonia association in Japan will give us their support (many thanks to Spain). I hope it will be an opportunity to convey to the people about 218Kamel J. By the way, we live in Japan with this condition of the nature since beginning. For us, the nature is beautiful and rich but also very dangerous and so hard living sometimes. But I think it is like sweet and bitter, such different tastes make the cooking delicious. I accept good times and bad times, happiness and sadness and even live and die. They are all here with us and make this world complete and tasty (?). It is my thought.

Some weeks ago, I was watching the news program on TV the report was about elementary school students who lost their families or houses by 3.11 earthquake and tsunami. I thought they must be afraid the sea

after the disaster, because it took everything from them. But they were not complained or scored at all. Their faces were look sad when they remember the disaster but they drew pictures of the gentle sea with blue sky on sunny day and each of them said "I like the sea". It touched my hear very strongly. I felt hope and courage from their strength. I guess it may be not easy to understand for you. But I felt something real Japanese culture is living in them. I really hope their recovering. Keep in touch. So long!

Sincerely yours,
Hiro
