Dear Hiro,

for me your schedule time is ok. But.... Jean Luc Chevalier is a very bad communicator... But FRANCE is a VERY great BikeTrial Nation. I am absolutely sure that you will be amazing when you see the organization of the competition in France. Jean Luc and especially Mr. Yannik Duteil (local organizer) will organize a INCREDIBLE competition in a VERY GOOD place.

Without you WBC is not WBC and you don't can miss in France. The largest number of BikeTrial Rider today is in France. Not in Czech or Spain but in France. Jean Luc is a very bad communicator but a very good organizer. UFOLEP can

move interest in France and is a very important entity in France. Mr. Yannik work very strong for the Event. Very strong. The European Cup was a success and with this team we are sure WBC will be the same. EBU can try to help you during you stay in Europe. In Italy I can help you with transport and hospitality but try to come for France.

Giuliano

Dear Hiro,

WBC is coming soon and I have to reply your last e-mail. Thank you for sending it to me. It is a week I was EBC preparing and this week again in my company working. I would like to ask you to reconsider your plan to come to all round of WBC 2012. I spent a lot of my energy with European Cup project last years to find new WBC organizers in Europe. I thing also Pere spent effort to make it in Catalonia which is not easy right now because of economic problems. All those people – organizers expect you to come and appreciate their work for BikeTrial in person from you as the BIU President.

I am ready to help you here with all arrangement about your traveling and accommodation. I can also ask and help Lukas Burianek being your assistant during all WBC rounds if it is helpful for you. I cannot come to France and Catalonia for my company reasons but I want to be in Italy for sure. There are coming also riders from Asia and America areas and I think it is necessary to lead Jury in a good way from the first round in France. I am sure that French organizer is able to make a good event and there will not by too many problems to sort it out. They made a good test during EC 2011. Please reconsider it once more again in order we will not lose our long-lasting work. Let me also know any your wish I can be helpful with.

Best regards,

Libor

Dear Biketrisl friends,

I have been to all world championship since 1988 except one round in La tour de Scay in 2005 when we had 5 rounds and I explained that I had to be Singapore for their first time WBC R4 event. It was true that my trip was too tight if I gone to France, But actually I could not accept Alan's was. He is a good organizer but he does all the way he likes. I did not feel his respect to our sport and he broke some important rules.

This year, we will make the 21 election for BIU president. That means I am on this post and took care of our sport after Pere Pi resigned UCI and BIU was set up in Czechslovakia. I am glad to work for it and I feel thanks to all delegates supported me for a long time. And now we have ABU and EBU (Thanks Walton and Libor) in those continentals and they support BIU very much.

I am still okay to do my part. And for WBC, I work as the WBC manager to check and help each organization. My mission is to complete each round with success and made a series of WBC complete in each year. I tried to solve problems and keep the competitions in fair for all participants. Assist new comers and work for the final classification for ranking of the year. Prepare diploma and medals for the ceremony in the final. And manage the rules with keep the originality and issue it. Send BIU survey to check promotion in each country belongs to BIU. Set the event calendar. Make agreement for international events. Try to spread our sport as much as I can in the world and help promotion in each country. Try to communicate with all people who support our sport for the future progress. I feel thanks to Jean-Luc for his responsibility to stay with Biketrial still though he is very busy. Thanks to all delegates for their work. I organize my event KC with a new concept as the good sample to show how we should change for better (thanks to Giuliano, Waiton & Jason for coming Japan in March), and try some new possibility like Blind-Biketrial or Push-Biketrial for the people and giving much value to our sport. I do all with my pleasure and I never though I wasted my time. I feel happy to live together with 100% biketrial in last 40 years as a Trial & Biketrial rider, as a promoter, as a coordinator, as a writer, as a video maker, as a importer, as a trainer and minder of my daughter, as the BJU president, as the BIU president. I can say I enjoyed all part.

This year, I took trip to Europe in Feb. The reason was only one. To have meeting with each delegate and the organizations of WBC and get many participants from many countries. France has no interest. Italy understood everything what I wanted to. Catalonia may be do not understand their fault in last 2 years. I really do not worry of each competition because the organizers have experiences and that part is actually no problem I know. In last 3 years, organizers of WBC does not much care about keeping the working schedule of promotion especially to abroad as the international events. As you see a problem of Chinese participants, they have visa problem because they started all work after they got the delayed event information from France and Catalonia. That is why I had to explained it in the meeting and keep our rules in the WBC agreement they signed. It is pity that it was not taken seriously to some people. I do not know if we can have more countries than the last year in Catalonia in last 5 days.

I am sure I will be at the final round in Italy. But now I am thinking about if I should

be the other rounds. I already tried my best to help them with my time and cost in Feb. If I go and help, it might be no good for their growing and educate new person who can be the next one to take care of our sport. May be I retard some one from leaning experience?

Thanks to Ot, Libor and Giuliano for trust in me and advice me to go all WBC. I will think this matter once again. But if I think my attendance is not necessary (it is depend on the results of entry on 21/June. I hope you will understand my thought), I will only trip to Italy for this time.

Sincerely yours,

Hiro
