

## **BIU NEWS 2012 JUNE**

## 2012 WBC (R1 FRANCE, R2 CATALONIA & R3 ITALY)

## **ERROR OF ENTRY LIST**

Dear Angel,

Following your rider has born in 2003. 2003 to 2005 is POUSSIN. Not BENJAMIN. Please check it.

Sincerely yours,

Hiro

Dear Hiro,

Sorry it's a mistake, he born at 2000 he´s Benjamin. Thank's

Dear Angel,

I found it by checking all list after I close entry. That is why we should close it on schedule. Did you check all birth year in your list? Please try it for not having the same mistake again. It is very dangerous.

Sincerely yours,

Hiro

Dear Angel,

Please send me your right entry list with modifying the error. I need it.

Sincerely yours, Hiro

We think that all delegates are checking the entry list carefully before sending it to BIU. This time we found one mistake in the list . I hope you will check your list one more time before it is closed completely on 28/June. The later, you cannot modify it (cause to be disqualified).

## HIRO'S TRIP PLAN FOR WBC

Dear Hiro,

I understand you are busy in Japan, but if we want to have competitions for the next years, we have to help the organizer, and your visiting is very important and the Presentation of the pushbike, do you that my father is promoting all the day this, just to help biketrial, I think we have to support him with your visiting

**Best regards** 

ot Dear Ot.

If we can get WBC in Ctalonia next year, it will be good. For this reason, we are helping them. My part, I did it already for the promotion and advice directry to the people in the last time. Before anything else, the success of WBC is most important and take it first. I hope the organizer will concentrate it and success.

Sincerely yours,

Hiro

Dear friend Hirano,

I want to remark you the importance that Mr. Hiroshi Hirano, President of the BIU, come to the WBC in Igualada. The BikeTrial need to help, not to brake and we need too the professional organizations, without that, the BikeTrial don' have future. Ocisport and all the organization work very hard, even me, to get a nice WBC. In Catalonia, as you know, have 16 countries and France and Italy have 14, means, the delay of the documents by post, are no so important for the final decision of the delegations. I don't wand any more discussion, just to tell you, PLS, COME TO BARCELONA AND IGUALDA. I wait for you, PIs. confirm me your assistance, Ok? We have sections into the City, will have many public assitence. As you know, we have an international presentation of the Push-BikeTrial and Push-Bike-F1, we need you presence too, is a history of this new sports into the BIU. Ok? PIs. take the flight ticket and confirm me, Ok?

B/Reg.

PERE PI

**Dear Pere**,

Italy got 16 countries. With Denmark for the first time. Then you see, R1 & R2 gave the effect of the number of participants and nations to the final. That is why, collecting participants for those 2 events were important for the final. I had meeting with Giuliano in Feb and March, 2 times. He understood very important thing for WBC and I think he tried his very best to get riders from another continentals and that gave some good influence to the other events. Thanks Giuliano.

I should think about the next plan to increase WBC. But actually I have done all the best that I can for this time.

Now the most important for me is the meeting in Sonico on 3/August. We have to do below things.

(1) Election of BIU president: I am planning to inform it on 1/July.

Candid	ate will be accepted from 1/July to 15/July. Election will be	
made a	t Sonico on 3/August. This should be publicized by our	
general	secretary (I think Rafa should take it).	
(2) Set the	event calendar for 2013: Delegates should send the proposal	
	before the Sonico meeting. The final deadline is	
	tember. I hope China and some European countries will bring	
	I the proposals. I am thinking to make the proposal for Japan	
	for 2013. I need the final meeting here before leaving for	
final.	. The date will be very important. Japan will be the R1 or the	
	cien for the rules. If it is necessary	
· · ·	sion for the rules: If it is necessary.	
(4) Etc.		
It could be	good to have PUSH-BIKETRIAL & PUSHBIKE F1 there with	
	ualada. I hope the success. I have no doubt about the	
	that you make.	
promotion	that you make.	
Sincerely y	vours.

numbers participants and countries because of their publicity. I know their budget problem but then, therefore they should try their best for this time. The organizer OCISPORT is doing good job and Ot helps it much but BUE & BAC does not work well for supporting them. They got 3 countries more than the last year but still 16 countries for R2 (14 countries for R1). The things I said in the meeting was not taken seriously. I tried my best with my responcibility to support them and change the situation. That is all and true. Italy will have DENMARK for the first time and thanks for Giuliano and EBU. From my side, I made meeting in March in Kameoka to invite some Asian countries and Italy to connect them to WBC. I am glad that Chinese riders decided to come to WBC this time. Thanks to Jason. I was thinking to get at least 20 countries for this time but I could not. I am so much desapointed my results. What I can do is I have to find the solution for the next season. We cannot change our situation unless we do not change something for the organizations. Agreement should be more details and penalty for not keeping schedule should be much strict. About the agenda of each round, the publicity of each event is the work for each organization and each host delegate. It is not exactly my side. They should be serious and try their maximum for the promotion by sending all necessary information to the people, medium and our friends in right moment. Helping it from EBU is very good support for them. Thanks a lot! Thanks for your offer for my attendance to R1 & R2. I feel really appriciate it. I am still thinking about it but soon I should decide my trip plan. I am sure not coming to France. Any way they can make a good event. Catalonia, I cannot promise it. Pere and Ot are asking me to come. But I cannot say YES. I am thinking what was the meaning of my last trip to have meeting with them? I do not see the strong reason any more to be there for I cold not change the situation this time again. Italy YES. I will work for the final round to fnish 2012 WBC. I am happy to work with them (Giuliano and Fabio). I do not know if you understand my thought. But I am thinking this way and follow it. Sincerely yours, Hiro We have learnt from past that there is something we can help and there is something we cannot help in an event.

One thing is participants/nation. We have the deadline in the agreement and we always send the advice but some organizers do not keep it. In the case, it will cause of getting

participants/nation from far continentals. Delegates need enough time to publicize the information and the most of people need enough time to decide their trip for WBC. At least people need right information some months before. Pere wrote in his mail "the delay of the documents by post, are no so important for the final decision of the delegations." Is 16 countries your goal? Does OCISPORT satisfy it? I do not say good or bad. But it is not my goal. For BIU, braking agreement 3 times already by BAC is serious matter. We cannot over look this point.

Another thing is sections. A few people may be come back, but most of them are not, if he got all 5 after spending. Please do not forget about the last WBC in Catalonia, the winner of Elite got over 80 penalty points. And one section was modified by the observer after Jury approved it. BIU has been waited the meeting report in Catalonia in last Sep but no report about above things arrived. I do not get the solution from BUE & BAC about this matter for the next.

Hiro has been thinking about how we can make WBC better. He has been all WBC (except France in 2005) in the last 25 years and also organized it for 16 times. And still fine to support events. But to think about the future, we should grow the next people to take care of our sport. For this reason, it is an opportunity to ask some delegate will take the WBC manager post to support R1 & R2 for this time.

News No. 030 dated 27/06/2012
