

BIU NEWS 2012 JULY

2012 WBC

QUESTION FROM IGUALADA

We hope delegates will check the condition of accommodation. Please send your answer to administracion.bue@biketrial.es.

Dear Hiro,

The organizer ask me if you can ask the delegate, if they can ask the rider which kind of vehicle they are using to arrive to Igualada, if they use camping tent,

Autocaravane, rullot or hotel, this is very important to calculate the real space.

Best regards

Ot Pi

Yesterday, Hiro made up TO DO LIST and MATERIAL LIST FOR WBC to Marius and host countries. Now they are checking it.

Dear Marius,

I made the list to chack the all things during the event.

Please check it.

Sincerely yours,

Hiro

Dear Marius,

I listed up minimum quantity list that we need an event of WBC.

Sincerely yours,

Hiro

Dear Hiro, dear friends,

thank you for the file. I check they with Fabio and I send you my proposal of time schedule for BIU Meeting.

Sincerely yours,

Giuliano

OKI

I passed on it immediately to the organizer who programmed a meeting next Monday with his team

j-Luc

Dear Jaen-Luc,

I will also send you the check list for WBC that I made it for Marius and Radim. Radium will work as WBC manager to check and help the event according to the rules.

Sincerely yours,

Hiro

Well.

I have everything, Hiro. Many thanks for your work. As said, I will do my best on each task. It is understood that as "lead juror" I will be maybe not in the

checking of the sections, although I will give my support to the different jury meetings.

Regards,

Màrius Mollà

Dear Hiro,

It is very good as support to Marius and Giuliano. I haven't found anything to be add and just to put there times and send it to delegates.

I think times should be given into the schedule by organizer. As the first step you should send to organizers authorization for Marius as a proxy president for R1 and R2. I am sure Marius is able to fix all times in schedule with organizer. I try to find a flight to France to be there on Friday in the evening and I have to leave on Sunday in the morning. It is just for case Marius need something and to meet organizers. If Marius need any help before event we are ready to help him.

Best regards,

Libor

Hiro,

It is great! It is way hoe we can go on. All these documents should be enclosed to WBC agreement. Please can you still more detail announcement and advertising of WBC for organizers? It was the main problem this year and we have to change agreement for WBC to avoid it in the future. There also should be written what is organizer obliged to provide as the service for BIU officials...flight tickets, accommodation, transport....please write your opinion and I can help you to adjust WBC agreement with our international attorney.

Thank you.

Libor

Dear Libor,

Thanks for checking the TO DO LIST and the MATERIAL LIST.

The time is very tight but I am thinking to make an instruction of how to operate EXCEL FOFT-WEAR.

I am going to send you the additional rules just for the organizer of WBC that I always send it together with our agreement and they check it before they sign. The basis was made by Pere in TRIALSIN time and the later I modified it when UFOLEP has decided to accept our sport. I put money thing and some rules for WBC organizer in the additional rules. If we add some rules for WBC organizer, I think we better put them in this.

Thank you so much for your very strong support for WBC. It sure be the insurance of success for the events.

It does not matter any reasons or any excuses, we should change the neglectful activity of WBC organizer. I know most of organizers administrate by fathers are thinking mostly about competition side (it is also problem because they work for their sons. The last event in Slovakia can be the sample) but they do not work so much for publicity. This is our weak point because most of events are held by amateur Biketrial clubs with voluntary people. Strangely the organizer of R2 is not a club, but it happened. I do not know exactly reason but I am sure BAC and BUE had to support them much more. I suggested it many times in the meeting but they forgot it. I think one of the solutions is make the publicity section in BIU.

Sincerely yours,

Hiro

OPINION FROM SPAIN

OK thank's.

Respect to the BIU News ..

My humble opinion, is specially, it's now difficult for families to be 20 days in hollidays to amateur sport, I'd better make two runs and WBC more nearby 1500km maximum distance? it can make more participation. BAC and BUE propose several points to improve and have more participation.

Regards

Dear Angel,

Thanks for your opinion and thinking about WBC. Any opinions are welcome.

As for me, I am a rider with trial mind (never give up and find my best way to survive) for my concept. I always try to finds the answer to solve matters in the best way and I like it. Mostly I do not like negative thinking because in that way, the answer will be made by diminution thought and it seems never grow. Not going forward, may be going backward.

About your opinion, If you think so, you can try it. Here I am wondering what makes you think so and how do you arrive to your answer. Because it might be right but also it seems easier solution without taking much effort. Is it our way? It is not my concept at least.

I understand that we have to adjust ourselves to the circumstance. But not loosing ourselves in the circumstances that changing all the time. I mean we do not have to give up our way while there is a possibility or while we have a chance there or before we try our best.

Today, people make much tight choice to use their limited budget on something for their pleasure. They cut it off and put it on the things they like it more or has value more. For this reason, we should give much higher value on our event, wider age (Push-Biketrial, Nature Ride - touring Biketrial), for everybody (Blind Biketrial) to our sport than the other to get people. We do not need lower quality events. It will make us down by ourselves. We need better plans for organizing events. It is necessary to check our past events to find what was short. I put some data of WBC last news. If you had your plan for R2 to make success, Please let me know it.

Let me know why are you in BIU? What is your purpose in BIU? Where is the ground of your though? Have you ever tried your best to collect nation? What will happen in WBC if we took your idea? Can we increase riders and

nations than now? How many?

Do you know why I am in this post? What is it for?

I always think that LIVING is like survival. If we do not fight to live, we are almost not arriving. Nothing is left when we leave. Isn't it a pity? We are all here together today. We can make it better if we try.

I hope all events this year will get big success and make people satisfy very much. That only leads us to the good next.

Sincerely yours,

Hiro
