**Sorry for the delay, we had work these days and personal affairs. We are conscious that the BikeTrial needs a important change, We need an injection of energy, with teams of people working together and not fall all the task to one person, as it is today. In Catalonia and Spain, as we have proposed and has formed a good team that will be presented publicly in Igualada R-2, are trying to do a re-organization of the entire operation of BikeTrial nationwide. This requires us all our efforts now, which we have no possibility of BIU or EBU candidature because the expectations would cover may not, if done, is done well and now we have much work here. We see that there are two strong candidates with Libor and Giuliano, and deserve our respect and support, as Hiro's worse on the task today. We will be by the elect and will work as we can.**
