Comment from Hiro

Yesterday I sent above information to our delegates. This time, the information about election was sent to everyone 2 months before, and candidate was started from beginning of July and closed on the 15th.

Normally our election will be forwarded by our general secretary. But we have a problem of this post since Mr. Enric has resigned it. Then Mr. Marius could take it (as BUE president has been taking the post, many thanks) until last September. I thought it was carried by new BUE president Rafa and asked if he took it in some months ago. and I am still waiting for the answer.

In this condition, to make vote in Sonico, I set the candidate term and electric vote term for the solution. I knew some people has opinions to extend the candidate deadline or no deadline for some people are still thinking to candidate.

WBC season has begun and we have a very little time now. If our delegates do not agree this process, we cannot make vote in Sonico for notify problem to our delegates. I am thinking to postpone the vote till the end of this year. I think it is better in this way to have enough time for the right process.

Please let me know if you agree it or not. Also waiting for your opinions.

**Sincerely yours,
Hiro**
