

## BIU NEWS 2012 AUGUST

### MILLIONS GRATITUDE TO MR. CHEN FROM BIKETRIAL

Events like “the Guinness record of 2008 Steps climbing by a bike” and “World Master Cup in China” were not possible to come true without helps from Mr. Chen (and of course we do not forget the effort of Jason). We can say Biketrial sport in China begun from those events.

Dear Hiro, Pere, Ot

Shanghai Jin Mao Director Mr. chen has just retired last month. Thanks to Mr. chen and all staff especially for their great support to BIU and Biketrial sports. Here is a webpage for Shanghai Jin Mao Tower Extreme Challenge Events Review:

News No. 009 dated 29/08/2012

BIU

Dear Hiro

Thanks for your news. Before I send my opinion, I will repeat the BIU Spirit mentioned in last mail. Thanks EBU president Mr. Musil sending BIU General Assembly 2012 with High Responsibility. Thanks Mr. Pere sending his new book *No Tengo 200 años*. It is about Biketrail origin and development. (More info:

<http://www.xbreaker.com/ArticleShow.asp?ArticleID=3271>)

It reminds the respectable BIU glorious history with more than 20 years. All BIU and Biketriar patriarchal figures give their selfless devotion to Biketriar sport. They show the spirit of High Responsibility, True Respect, Full Devotion, Credibility and Integrity, Serious work, Effective Cooperation and Attitude of Enthusiasm to the young generation, they are volunteers but professional and lead the sports to the right direction through their great effort in their respectable life. h

As respect to BIU and Biketriar patriarchal figures, I will introduce Zhao Xuan's situation with High Responsibility.

Zhao Xuan is not the new rider in Elite, He is in Elite in 2010. Why not now? No money to participate in WBC 2011 all held in Europe. So what? Out of Elite according to BIU rules. Then What? Save Money How Long to save enough money? More than 1 year. How Much? Cost 4300 EURO to participate on all WBC rounds all held in Europe. WOW! What is the result? Not bad, No. 4 in Senior and No. 8. Why do this? Hope to return Elite.

Zhao Xuan has asked me 1 question these days: How about UCI? I don't know. I tell him a story about how BIU was founded in 1992 know from Mr. Hiro, Pere and Enric. Did Zhao Xuan participated in UCI before? No. Is UCI welcome a rider who will cost 300 EURO to participate in their Events? Please ask UCI. I have noted there are some talks about UCI rider could participate in BIU Elite in BIU news. Eh? Zhao Xuan wants to go to UCI then come back BIU Elite? So no need BIU staff to discuss so busy with High Responsibility. IS IT GREAT????!!!!!!

Actually, Zhao Xuan applies to RETURN BIU Elite. Who will consider the application? BIU Technical Group. What BIU Technical Group should do? Got the Scratch and check. Then what? Give proposal but not decision with High Responsibility to BIU presidium. Why to BIU presidium? BIU presidium is the power center of BIU to solve any problem and make decision. Or why set BIU presidium? For good looking? Then what? BIU presidium discusses and ask for the opinion of the rider through Delegate. Technical Group should also ask the opinion of the rider through Delegate before make proposal. Then? Final decision was made by BIU presidium. It is not written in the rules? Yes, just as it is not written What BIU members fs IQ is required.

So it is like a chat in Funny Club Bar? What? It cost extra money in a Bar. Then? No Money. Then? Ok, normally out of Elite then save money again or... or what? Return BIU Elute from UCI. Wow! But Why not say injured in the year? For BIU Spirit: High Responsibility, True Respect, Full Devotion, Credibility and Integrity, Serious work, Effective Cooperation and Attitude of Enthusiasm

Hope enjoy and encourage each other.

Best Regads  
Jason

Dear Hiro and all biketrial friends,

Week ago I do receive the news but no file is attached, could you please send me the complete final results (revised+scratch)? thanks in advance. I do concerned about things in the news, Zhao Xuan and other riders when there are positively closed even final results haven't finished right, this normal-new systems. But you and peoples there is the one who knows and experienced, I believe all this will be solved properly and consider everything the best.

Regards,  
Yosnison Maretsa  
INDONESIA

Can we please see a set of results that include the full scratch ranking. It would make things easier with this decision If a rider from 4-8 requests to move to elite and his results look good, then we can make a decision  
Scott

Dear Scott,

I enclose the Scratch file that I received from Mr. Hiro. Please, I repeat: Giuliano, Scott, Mr. Hiro, Lukas don't have competence about this question. The decision must arrive from Jean, Stefan and Radim; the Technical Commission. So I write in BIU Statute. Scott, have you copy of BIU Statute ?

Giuliano

Dear Hiro,

what is the problem ? The problem is Armand Molla ? The problem is Zhao Xuan ? If the Scratch of Sonico had problem means that software is not good. Have you considered this eventuality ? I understand now that Sonico file had problem. Ok. Sorry from me, Fabio and Mirko for the mistake. In Sonico we have vote about the new Presidium and now we want work. New BIU President have declare that now he work with Presidium. Where is the problem ? The last thing that need today in BIU is tension. We had vote Mr. Hirano for President and we want Mr. Hirano for President Every people in Presidium have his mandate and his competence. Competence in Elite promotion is Mr. Jean Fabregas

and the Technical Commission. The first 8 Rider are:

Name	Nation	Promotion	Request Elite 2013
TIBAU ROURA Rafael	CATALONIA	Automatic	No
REMY Morgan	FRANCE	Automatic	No
FIGUERAS VINAS Juan	CATALONIA	Automatic	No
MOLLA GARCIA Armand	CATALONIA	Possible	Yes
DERMAKS Ansis	LATVIA	Possible	No
KAKAC Martin	CZECH	Possible	No
GARCIA FURIO Juan Pedro	SPAIN	Possible	No
ZHAO Xuan	CHINA	Possible	Yes

Why for you the request of one rider is not "important" ? For me is the first thing. Have your request from Martin Kakac for example ? If Martin Kakac ask to go in Elite, your answer will be no ? Why ? Because you think that Martin Kakac is not able to compete in Elite ? Why ? Why we need wait Delegate that don't have activity ? This is not write in the Rules. Rules talk about Presidium. Not about "all delegate". This delegate had come in Sonico, apply his candidature and take vote. Or not ? Why we must expend a lot of time, a lot of money, a lot of energy and not have nothing right ? Italy, Catalunya, Japan, France, Spain, Czech, Slovak, England, China, Andorra, Sweden and other must wait USA Delegate to decide ? Or Greece ? Or Lebanon ? About Web Site: I am on work. Please send me your introduction about "what is BikeTrial", please. About Economical Resource: we have talk in Sonico and all member of Presidium agree on the project to find solution. About your responsibility:

The definitive responsibility about promotion is from Presidium not from President. About you feeling to stay:  
Find it.

Best regards,  
Giuliano

Dear Giuliano,

What is your purpose to being a BIU official? Where is the goal for our sport? BIU got this sport from the originator Mr. Pi after he resigned the representative posts of TRIALSIN and BMX in UCI. Since then, I have been running the union, improving the things but never forget keeping the originality and the tradition of our sport till today. My goal in BIU is "to make our sport as popular as we can in this world" (it is the final goal of BIU).

Biketrial is not easy and simple sport as racing or the others. For the riders, organizers, audiences, it is enough complicate already. If you are going to make it much more complicate, it is silly and bad. If you want to make it bigger than now, you should understand it. It is very clear for

all except fathers. They are different. Most of their thought is not thinking widely and deeply. They only see their families. If you let them right to organize union, I am sure it will broke our sport soon or later someday. If you do not like it, do not accept if the thing is not following our concept.

Whichever we got request or no request promoting to Elite, we should check the results and discuss with the delegate in the country. He knows (or he can check) if the riders has the ability or not. So the request does not take the first. Then, if the rider is not happy to be Elite, he can be demoted by sending his request.

We also should have the tactics to have Elite in the important countries. Having Elite in China makes a lot different for promotion of our sport in the country. It is very important thing that we should not forget it in the discussion.

However the matter is decided by the presidium or the TG, it should be discussed together with as many as our delegates and listen to their opinions before the final decision. This kind of process is very important to keep BIU stay on the right truck and stay on a real democratic way.

Each country has some different reason to be like now. For example, the USA organized WBC before but now not active with the new delegate. It was begun when they decided to change their system. All we have to do is guide them to recover the situation. They should have right information and they should attend our discussion for all matters. Cut or leave them behind makes nothing better.

Every change will give the effect to the situation of our sport future. It sure will give the change by effect to our sport more or less. Do not think that we can easily change it back in case. Like some say the water from the grass to the floor never comes back. We should take enough discussion and listen to all opinions and the top should decide with deeply thinking for the sport at the last with highest responsibility. Think all possibilities for the decision, please.

In BIU, all things start from beginning of the year and finish the end of the year same as license. This is very important for the 2013 WBC host countries. If there is a possibility of changing the condition and the rules, it can be a high risk for the project. For this reason, may be Japan will stop the project of 2013 WBC till the things settle down.

If you start new presidium now means however I finished 2012 work already. From now on, I do not carry any responsibility for the decision of the presidium. I was selected as the president for 2013 and 2014. But now I am not sure if I can continue in BIU. I can say I will do my own things till I get enough time for my BIU activity. I think it is better.

I have been keeping this BIU news mail to have communication with the

people who concerning to Biketrial sport in the world for a long time. But the BIU site will start soon. So, this will be closed this time. Million thanks to all for reading this till today.

Sincerely yours,  
Hiro
